BREATHE for Loboc Watershed

The Bilar River Ecosystem Agricultural Technology and Health Enhancement (BREATHE) Project of PROCESS-Bohol, Inc. is one of the implemented projects under the Loboc River Basin Area Focused Approach, a consortium of NGOs under the Bohol Alliance of Non-Government Organizations (BANGON). It covers three barangays located along the Bilar River of Bilar town. It facilitates a series of intensive awareness campaigns for the protection of the Loboc Watershed, provision of water system and implementation of agri-based livelihood activities.

River Bank Stabilization

Biodiversity Monitoring

Information Dissemination
