

# Community Life Tour

*Commune with nature  
and experience community life...*

The Community Life Tour (CLT) is implemented by the San Vicente Mangrove Association (SAVIMA) and Dipatlong Mangrove Planters Association (DIMAPA). It started in 2003 through the initiative of PROCESS-Bohol, Inc., a Non Government Organization in coordination with the Local Government Unit and other partner agencies.

It is located in the southwestern part of Bohol in the municipality of Maribojoc at the heart of the two ecologically important habitats, the Abatan Watershed and Maribojoc Bay. Maribojoc is 12 kilometers north of Tagbilaran City, it is situated along the National Highway and is accessible from both Tagbilaran City and the Municipality of Tubigon.

For more information on ecotours and costs please contact:

This brochure is produced by PROCESS-Bohol, Inc.  
with fund support from

Captivate yourself with the true essence of eco-tourism. Be part of the community - learn their livelihood activities, join in merry-making and partake the best of the local cuisine. Appreciate the importance of coastal ecosystem, the protection and conservation efforts done by the locals towards sustainable development. Be part of this endeavour....

## Guided Mangrove Adventure Tour

Take a walk. Cross the half-kilometer bamboo boardwalk through a 56-hectare serene mangrove forest. Commune with nature. Listen to the sound of chirping birds. Stop for a while and rest in the native cottage along the boardwalk.

## Boat Paddling

Enjoy boat paddling through water channels of the mangrove reforested area. Feel the calmness of the water and coolness of the wind.

## Livelihood Demonstrations

Learn the way of life of the locals. Try to weave nipa shingles, gather shells (**emba**) or catch snapping shrimps (**takla**). Feel the cool mud and wipe the first flood of sweat as you plant potted mangrove seedlings.

## Local Cuisine

Savor the native and mouth watering local cuisines - fresh seafoods, root crops, vegetables and fruits such as (as sinugba, kinilaw, nilaw-oy, binutongang embao, suman and many others.)

## Serenade (Harana)

After the sumptuous meal at the reception center, sway and sing to the beat of Visayan Folk Songs played on guitar by the locals.

## Homestay

At the end of a meaningful day, retire to the comforts of home with a Boholano family. Feel the company of your host family as they treat you with Filipino hospitality.

## Handicrafts & Delicacies

Take a souvenir from the variety of native products and delicacies locally produced and supplied by the partner people's organizations.

*The Community-Based Sustainable Tourism (CBST) is a multi-stakeholder initiative that is managed by the community. It aims at providing alternative income to fishers and women while protecting and conserving the environment. These communities protect the vast mangrove area through the Community Based Forest Management Agreement (CBFMA), a 25 year tenurial instrument from the Department of Environment and Natural Resources (DENR).*
