

Fishery Development Project

The Fishery Development Project (FDP) assists 24 partner fisherfolk organizations and the provincial federation Makusganong Kapunongan sa mga Gagmay'ng Mananagat sa Bohol (MAKAMASA-Bohol). It aims to make these groups get dynamically involved in local governance with the objective of pursuing their legitimate interests and aspirations without putting the protection, conservation, development and utilization of marine and coastal resources in jeopardy. It mainly concentrates in the Maribojoc Bay area and the adjoining four municipalities to the south.
